During the last few days reports have reached this country from Marico, me New York, of the probable outbreak of war on the Rio Grande. The public may safely dismiss as fictitions nine tenths of the news which comes by this channel; wur between the United States and the Mexican Empire will not take place before it is resolved on a Washington; and it is certain that at present such an enterprise is not in the intention of the American Government. It must be obvious to all who lave observed the notion of that Government during the last five years, that neither party clamour nor the suggestions of national passion can divert it from the pursuit of the cardinal objects of its policy. President Jourson's chief business, that which he must perform whatever elso is neglected. is to reconstruct the Union. Rus. The official proclamation, declaring the export of rice again open was issued on the 24th ultur it contains besides the vews of Government about the coming crop (which fully coincide with those expressed in our circular of the same date) and remaires the duty of 3 per cent on importations of Rice. . We are happy to say that the weather during the past fortnight has been all that could be desired, there has been a high waterstand in the rivers and no want of rain, so that the fears entertained for the already standing crops of garden rice Nassoan) have disappeared, while at the same time the country people have been enabled to communes vigorously with the sowing of the Numunic field rice. If the weather continues to be favourable, we may with confidence expect a good yield, though perhaps in some districts a somewhat later crop, and as there is no doubt that. the cultivation of ground has been much more extensive this scuson than in any of the former

years, a comp ratively large quantity of grain will be brought to maket, even with an average fair yield only of the grop in general. An importation of Rice, to which possibility the Government proclamation alludes, may therefore only in so far take rlans, as government itself contemplates to have rice brought over to Bangkok from the west coast of the gult and Singapore, for cheap resule to the people; pric s here are still more or less artificially kept up by native speculators to the detriment of the poorer class, and it must by hoped that this judicious measure on the part of government will be crowned with success, and that we may soon be able to report a considerable reduction in prices of a paddy, which we are the more justified to expect as the stock of old raddy in the upper provinces is generally reported to be considerable and supplies are already beginning to arrive in larger quantities. We quite co-day. Namuang paddy, "(which only a month ago was sold at Treals 95, per Coyan) with Ticals 75 a 90 per Coyan of about 28 picula:

As mantismed however in our last circular, time must be allowed for gradual vielding of our

priors, and we can accord hope to see our expert business in a normal state before end of Printed & Published by Y. J. Munkow at the Daily Press Office, Wyndham Street, Honghoog.
